BY THE VERY NATURE OF THIS DEVICE IT IS POSSIBLE THAT PERSONS USING IT COULD SUSTAIN SERIOUS BODILY INJURY. FOLLOW ALL INSTRUCTIONS FOR ASSEMBLY AND SET UP. PERSONS USING THIS DEVICE SHOULD ALWAYS WEAR PROPER EQUIPMENT, ESPECIALLY SHOULDER PADS AND HELMETS, AND BE IN GOOD PHYSICAL CONDITION. THIS DEVICE SHOULD BE CAREFULLY INSPECTED ON A DAILY BASIS TO DETERMINE THAT IT IS IN PROPER WORKING CONDITION.

****NOTE****
YOUR ROGERS ATHLETIC EQUIPMENT WILL LAST LONGER IF IT IS PROPERLY STORED WHEN NOT IN USE.

Assembly Instructions

Step 1

Place head on lower unit and line up the holes. Insert pin through entire assembly. Then place c-clip over end of pin.

Step 2

Dig hole approximately 12" in diameter and 24" deep.

Champions aren't born.
They're made.

Step 3

It is recommended that cement be used to set base in place. Make sure base is flush with ground.

Step 4

After cement is cured place upper unit into base assembly and secure bolt.

Step 5

When unit is not being used we suggest the upper unit is stored indoors. To prevent debris from gathering in base tube, place cap on base assembly.
