TRAP CHUTE

> Stay lower longer

The Zone Chute gives coaches the advantage to teach players to stay lower longer. Its large size allows you to train more players in less time and the unlimited angle adjustments give you the greatest flexibility for training.

THE FACTS:

- ★ Train all three phases of the game
- ★ Rogers largest chute 8' wide x up to 40' long
- ★ Large size means more athletes and more reps
- ★ Easy, quick adjustable angle and height to better train your drills and players

POWER. SKILL. VICTORY.

Training Drills

Defensive Line Take-Off Work low pad level with D-Line men, hit, dip, rip, up thru the O-lineman.

Read and React Have LBer's work on their zone drops in a good bent knee position and then react to the run or the pass. Use Titans or Scouts to finish out the drills.

Defensive Back Pedal With the width of the chute being 8' you can work individual or two players at a time on back pedal technique then work on breaking on the ball or run support.

Agility Teach all your Agility drills under this Chute, with the height adjustment and easy angle top, do lateral movement for longer distance with a good knee bend.

ZONE CHUTE™

> All Zone Shutes are 8' deep. Order by length below. (Standup dummies sold separately.)

16' Zone Chute™	
410721	>>512lbs.
24' Zone Chute™	
410722	>>664lbs.
32' Zone Chute™	
410723	>>812lbs.
40' Zone Chute™	
410724	>>964lbs.

Adjust the height and angle of the Zone Chute to meet your training needs

The diagram illustrates the adjustable features of the Zone Chute. On the left, a vertical dimension line indicates a height adjustment of 24 inches. On the right, a circular diagram shows the top of the chute can be tilted at a 90-degree angle in either direction from the vertical.
